

## FAQs:

### *What happens when a title expires?*

The titles will automatically expire, so no action is needed on your part. If you still see the book on your Kindle, you can tap and hold the cover until you are prompted to delete the book. You may also login to your Amazon account and return the titles from the **Manage Your Content & Devices** page.

### *What if I don't finish my book?*

Your Kindle will remember your place, so simply check out the title again to resume reading.

### *Can I renew a book?*

Yes! If there are no holds on the title you can visit your account page by visiting [clamsnet.overdrive.com](http://clamsnet.overdrive.com) on your computer and renew two days before the title expires. You will need to re-download the book however.

### *Can I return an eBook early?*

Yes! Visit your Amazon account's **Manage Your Content & Devices** page to return your book.

### *What formats can I read on my Kindle?*

Kindle books only. There are over 14,000 Kindle books available on our catalog.

### *Which way should I sign-in?*

The simplest method is to use your library card—every method requires it! But you can use any method you feel more comfortable with.
