

Introducing Our New App!

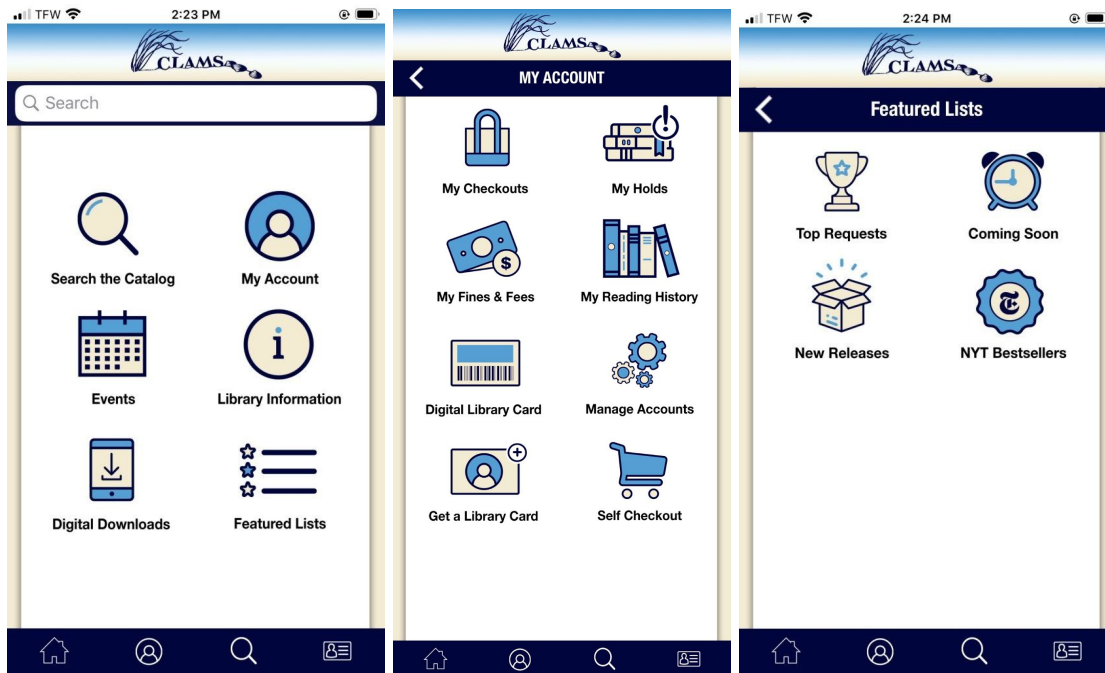

CLAMS is proud to introduce the new **CLAMS Library Network** app! Available for [iOS](#) and [Android](#), this app has a broad range of features and functions that will make your library experience a whole lot simpler.

Our app makes it easy to browse our collection, get details on items, make a selection, place a hold for later pickup, and even renew items previously checked out. You can check out eBooks and eAudiobooks with the touch of a button, then listen to them in the [Libby](#) or [OverDrive](#) app.

NOW the Clams app allows SELF CHECK OUT! Go to My Account.
CLICK SELF CHECKOUT - Allow your device to access camera
SCAN BARCODE on Library Book

If you're on the go and searching for the nearest CLAMS library, check out the Library Info feature, which shows location addresses and hours nearest to you with links to their websites. We've also added our Featured Lists so you can browse Top Requests, Coming Soon titles or New York Times Bestsellers and request the ones you want.

The Manage Accounts tool lets you add multiple library cards — a great feature for families! Don't have a library card? Request one through the app.

Available now in the [App Store](#) and [Google Play](#)
Search for the CLAMS Library Network to download to your mobile device.
