

Fees for Services

Service Fees Policy

Free access to information in varied formats is essential to the West Tisbury Library mission but there are limits to what the Library can provide from public funds. Any fees for Library services shall be established at the discretion of the Trustees in accord with the principles and guidelines listed below:

- Fees may be established when an enhanced service is provided as an alternative to an existing free service.
- Fees may be established when the service is not clearly within the mission of the West Tisbury Library.
- Fees may be established when the service clearly benefits one user to the exclusion of others or prevents reuse of the information provided.
- Fees shall not be established solely on the basis of format or vehicle for presentation of information.
- Fees will be assigned based on a cost recovery formula that will include a proportion of staff time, consumables, and utility costs.

Adopted by vote of the Library Board of Trustees, 8/14/2008
